

Not a Trade. A Partner.

Smart Home Set Up | Education | Technology | Electrical | Low Voltage | Security

Who We Are

At EG Community, our philosophy is that we are not just another trade, we are a partner. And this philosophy guides everything we do. Focusing on partnership means that we provide exceptional service to our clients across residential, industrial, and commercial sectors. Our experience and versatility in both electrical and low voltage lets builders hire one contractor for the whole job, streamlining installation and ensuring that projects are completed efficiently and on time.

On Time.

On Budget.

On Top.

Smart Home Set Up

Our technicians assist homeowners with the installation and programming of their Smart Home technology.

Technology

We'll educate homeowners on your electrical and low voltage options, upgrades, and customization.

Education

With our vast knowledge and years of buyer data, we help guide builders with their low voltage and smart home offerings.

Security

HD video capture, two-way intercom, wifi doorbell, locks, garage, and EG Secure Interface.

Electrical

Underground, boxing, wiring, hot check, and finish to homeowners and residential developers nationwide.

Low Voltage

Low voltage structured wiring, security system installation, cable management, network, ongoing repair and maintenance.

How We Work

We are the region's top supplier of electrical and low voltage services, providing holistic solutions packages that enhance client engagement, improve customer service metrics, and elevate our builders' products. We are a preferred provider for production home builders across Ventura, Los Angeles, Orange and San Diego counties.

Our partners include:

The EG Community Advantage

EG Community is an integrated service expert for production home builders. From electrical and low voltage to cutting-edge smart home technologies, our service platform is nationwide and under one roof. Whether it be ensuring builds are using updated electrical codes, managing home network setups, or customizing option plans designed for specific communities, your master plans will be efficient,

state-of-the-art, and built responsibly for your customers and the planet.

We guarantee our products' availability using an advanced inventory management service to ensure that our technicians keep pace with your schedule. We anticipate production to ensure that your build runs as smoothly and efficiently as possible.
